Pupil Questionnaire April 2025

Following on from the parents questionnaire earlier this year, all pupils had the opportunity to voice their opinion about our school! Overall we were very pleased with the findings. Some pupils in Year Six were also given the opportunity to expand on what they thought of Wembrook, their comments are also included.

Believe and Achieve

The best thing about Wembrook are the kind teachers

We have so many after school clubs at Wembrook. My cousin goes to another a school and he doesn't get any.

I have so many friends. We treat our school as one big family.

The best things about Wembrook Primary School are that there are loads of supportive adults.

I love Wembrook because of the support we all receive. In addition, we have so many fun events and school trips it's unbelievable. But most of all I love our school because everyone is so kind.

We have so many fun things going on every year. Harry Potter Studios, Paris trip for Year Six. And then lots of things that happen every other year like Wicksteed Park. Wembrook's Got Talent and the Family Day at Hartshill Hayes.

Which is a good reminder if you haven't Ofsted: Parent View

We hope that we can show how involved our parents are with the school by having a large number of surveys being completed before Ofsted visit.

If you can support the school:

- Google Parent View or go to parentview.ofsted.gov.uk
- Click on "Give your views now"
- Then follow the instructions
- You will need to register and give an email address. This stops multiple entries!

We are a

**Problem-solving
School**

Enriching maths

We are now an Nrich Problem Solving School!

This exciting new initiative will help our school to raise the profile of mathematical problem-solving. We are very proud of the progress we have made with mathematical fluency over the last few years: we ensure children have a secure grasp of number facts, calculation strategies and mental methods.

We're now turning our attention to embedding more open-ended investigations and problem-solving opportunities within the curriculum. Our aim is to develop pupils' reasoning and resilience — encouraging them to explore, make connections, and explain their thinking in greater depth.
