

# Design and Technology

Please help your child with their learning by going through this fact sheet with them. They will be quizzed on this at the end of half term. We appreciate your support.

A shelter is a construction which offers protection.

Length can be measured in centimetres and millimetres.

Thatch is made from straw.

If my structure falls down, I will improve your design.

An inventor has lots of practical ideas.

Jinks corners and glue can be used to join pieces of wood together.

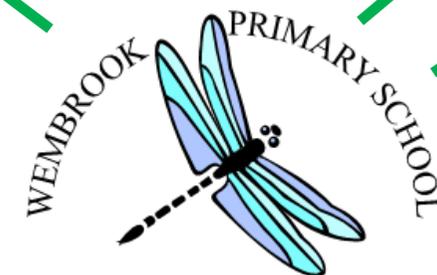

When drawing my designs, I will use a pencil and ruler.

When building my Saxon house, I research first, then plan, design and finally make it.

When using a saw, keep your hands clear, don't use it near other people and hold the wood steady when cutting.

This is a hacksaw.

## WEMBITES

### Key Vocabulary

- ⇒ **Hacksaw** - a small saw.
- ⇒ **Shelter** - a place or building which provides protection from the weather.
- ⇒ **Jinks Triangles** - small pieces of triangular card which are used to strengthen the corners and joins of the wooden frame.
