

Year 1 - Summer 1

Geography

Please help your child with their learning by going through this fact sheet with them.
They will be quizzed on this at the end of half term. We appreciate your support.

We live on the continent of Europe.

There are seven continents.

The weather in Antarctica is very cold.

Nuneaton is not a continent.

Key Vocabulary

- **Continent** - a huge piece of land, usually surrounded by water and made of lots of countries.
- **Equator** - an imaginary line circling the Earth, dividing it into North and South.
- **Fossil** - the remains of plants and animals that lived long ago.
- **Pangea** - a supercontinent, when all land on Earth was joined together.

Pangea is a supercontinent formed millions of years ago.

Scientists found out about the Pangea from fossils scattered across continents.

Asia is the biggest continent.
