

Geography

Please help your child with their learning by going through this fact sheet with them.
They will be quizzed on this at the end of half term. We appreciate your support.

An aerial map is a map which is from a photo taken from above (by a satellite).

Nuneaton is a town.

A physical feature is a geographical feature that naturally occurs. (Made by nature).

A human feature is a geographical feature that is man made. (Made by humans).

Environments can change in many ways from flooding, drought and fire to new buildings, demolishing buildings or by adding new roads.

Every map needs a key so that you know what the symbols mean.

A farm, canal, buildings and roads all count as human features of geography.

Factories need a site that is flat, easily accessed by roads and away from water.

Glenridding is a village in the Lake District that was changed when it flooded.

Attleborough has changed over the years with new schools, shops and roads.

Key Vocabulary

- **Town**—a built-up area that is larger than a village and generally smaller than a city.
- **Site**—an area of ground where a building is to be built.
- **Village**—a built-up area smaller than a town where people live.
