

# Wembrook Primary School PE and Sports Premium Academic Year 2018-19

## Funding to Support Primary PE and School Sport

Schools with primary-age pupils receive PE and Sport Premium funding based on the number of pupils in Years One to Six. Each school receives £16,000 plus an additional payment of £10 per pupil. For us, this amounts to £21,300 ( Autumn 18 to Summer 19)

The Sports Premium was introduced to fund improvements to the provision of PE and sport, for the benefit of primary-aged pupils so that they develop healthy lifestyles. It is allocated to schools to work with all pupils.

Schools are free to determine how best to use this funding to improve the quality and breadth of PE and sport provision, including increasing participation in PE and sport so that all pupils develop healthy lifestyles and reach the performance levels they are capable of.

### Accountability

Since September 2013, Ofsted inspections report on PE and sport provision and how schools will spend their additional funding. We also have to account for how we spend our money by publishing details on our school website and by discussing actions at a governing body meeting.

Focus For Funding (what do we hope to gain from the spend)	Activity Planned	Dates	Cost	Impact <i>Evaluated June 2019</i>
To increase the expertise and experience for the pupils in a specialist sport.	All classes in Year Five and Six (six classes) attend Nuneaton Gymnastic Centre for six weeks.	Sept 18- Dec18	£3000 (Gym) £500 (Transport)	Pupils have the opportunity to train in a professional gymnasium and to receive specialist coaching.  All pupils work towards a Core Proficiency qualification. The vast majority receive Level 8 in Year Five and Level 7 in Year Six.  As in recent years we are aware that the link with the Gym has resulted in several pupils joining and achieving varying levels of success outside of the school day.
To support pupils in being able to use their bikes in a controlled and safe manner	Bikeability Training  All Year Six pupils are provided with bicycles and safety equipment. They are taught how to cycle on roads in an appropriate and safe way.  A small number who are unable to cycle, are given the opportunity to learn	May to June 2019	£1500	All Year Six have the opportunity to develop their skills and confidence to cycle on the public highroad safely.  This year five pupils who were unable to cycle or were very reticent received initial training about how to ride a bike safely.

<b>Focus For Funding</b> (What do we hope to gain from the spend)	<b>Activity Planned</b>	<b>Dates</b>	<b>Cost</b>	<b>Impact</b> Evaluated June 2019
To increase the expertise and experience for the pupils in a specialist sport.	All classes in Year Three and Year Four receive tennis lessons at Nuneaton Tennis Club (six weeks).	May-July 2019	£1000	The school continues to develop close links with Nuneaton Tennis Club which is based in our local vicinity  Pupils have the opportunity to be taught by a qualified tennis coach. All children are introduced to the sport and are signposted to how they can become junior members of the club if they choose.
Sports Equipment is refreshed and expanded	The school has a wealth of equipment which is used regularly. Through wear and tear the school allocates a generous budget to ensure that there is appropriate equipment and that is in good working order.  A significant amount is spent annually on keeping sports equipment (gymnastic benches etc.) in an appropriate condition for the six monthly safety checks. For example Nov 18 £ 300	Summer 2019	£2000	A range of equipment has been bought over the year, Significant purchases include four new netball posts (£600) and a class set of Premier footballs (£400)
To support the maintenance and upkeep of the MUGA pitch	It has been estimated that over 300 pupils use the pitch on a weekly basis. The pitch requires regular maintenance.	Throughout the year	£2500	The pitch continues to be used throughout the school day, which is highly advantageous especially during the wet winter months.  The week beginning 11th March 2019 it was estimated that including break time, PE lessons and clubs over 330 pupils used the pitch within the week.
To support lunchtime games through the popularity of basketball	Basketball has a high profile with many of the Key Stage Two pupils who actively choose to play the game at lunchtime. To purchase some additional posts (three) so that more children can take part in playing. To run some organised sessions to skill the pupils in how to play correctly.	January 2019	£1400	The basket balls continue to be very popular. It was estimated that the week beginning 11th March over 110 pupils took part in some basketball lunchtime activity during the week.  Organised sessions have taken place at lunchtime, teaching pupils the rules and some basic skills. Will look at running an after school club next year to tap into the interest in Basketball.
Using local sporting facilities	Due to the location of the school, we are fortunate that throughout the year, we are able to easily access the Pingles Sport Centre to support additional sporting activities. This includes using the swimming pool, the athletics track and the newly installed netball courts.	Throughout the year	£4,000	The school used the running track regularly throughout late May and June.  In addition the netball team played on the courts on numerous occasions. Due to the link with Nuneaton Harriers and our MUGA pitch, the cost of these facilities was significantly less than the budgeted £4000. Budget will be reduced next year.

<b>Focus For Funding</b> (What do we hope to gain from the spend)	<b>Activity Planned</b>	<b>Dates</b>	<b>Cost</b>	<b>Impact</b> <i>Evaluated June 2019</i>
Support teaching of lessons	Cyber Smart. Interactive ICT PE warm up that teaches the pupils new skills as they warm up for their PE lesson, usually in the hall.	Throughout the year	£400	The program is used extensively throughout the school. The package is very popular with teachers and pupils alike. Apart from teaching new skills, it is very good at enthusing pupils.
Selected Key Stage Two pupils to develop resilience, cooperation, confidence and behaviour through a weekly programme of sporting activities.	Throughout the year the school is trialling the Prince William Award delivered by Skill Force.  A new initiative that is best described as “nurture through sport”. 25 pupils spend an afternoon a week involved in predominately practical activities which focus on resilience, listening, communicating, cooperation, fairness, confidence, behaviour as well as learning new sporting skills	September	£6300 (Prince William)  £3500 (Staffing)	The project overall, has been highly successful. Pupils have clearly enjoyed their Tuesday afternoon sessions, with many believing it is the highlight of the week. The vast majority involved have found it very rewarding and there are many anecdotal examples of pupils who have shown clear progress not only in their sporting abilities but in their attitude and resilience in a sporting environment. For some pupils they have been able to take these newly developed skills back into the classroom so it has had a direct impact on their learning in the classroom.  On reflection the group probably had too many “strong characters” which on occasion meant that they could dominate the sessions. The school will support this initiative again next academic year but will review the selection process.
Amount Spent			£26,100	

Meeting national curriculum requirements for swimming and water safety	Year Six 18/19*
Percentage of current Year Six pupils who can swim competently, confidently and proficiently over a distance of at least 25 metres	65%
Percentage of current Year Six pupils who can use a range of strokes effectively, for example front crawl, backstroke, breaststroke or butterfly	60%
Percentage of Year Six pupils who can perform safe self-rescue in different water-based situations	31%

\* The majority of school swimming lessons take place when the children are in Year Three and Four. As some of our pupils continue to take lessons after these school years the Year Six data is pupil generated and therefore can not be validated by school.

## Overall Conclusions

### Impact

As always the impact and the effectiveness of the various initiatives that have been introduced over the last year are not necessarily easy to directly link to changes in healthy lifestyles or PE participation. However, we do have positive anecdotal evidence of:

11 different after school sports clubs were run during the academic year. In addition, Cross country and athletics clubs took place during the school day. Estimated numbers suggest that over 320 pupils attended at least one after school sports club.

One of the major strategies the school has adopted in recent years is to give sports participation a higher profile in school assemblies. For example, a table tennis table was initially set up in the hall with the whole school watching a demonstration match. Also pupils who take part in clubs outside of school are encouraged to bring in trophies, certificates and any other recognition of the sport they take part in. This plays a significant part of many of our whole school assemblies.

The school has had a very successful year in competitive sports.

The Year Six School football team had their most successful season ever. Winning the Nuneaton Large School Football League and reaching the final of the Nuneaton School Cup.

The school has also had a very successful season with Netball. Both our Year Six teams came second out of all the schools in Nuneaton in their respective A and B leagues. While our Year Five teams came second in the A league and first in the B league, this is the first time we have won the league. The success of these teams has raised the profile of netball throughout the school, on 26th March it was recorded that over 65 pupils were seen playing netball at lunch time.

In addition, the Year Six netball team qualified for the Warwickshire, Solihull and Coventry Summer Olympics. The team came a highly impressive fourth place.

The school retained the Nuneaton Area Athletics Competition. This is an unprecedented sixth year in a row.

Nuneaton Harriers report that some pupils attend their athletics club after using their facilities during school time.

The school sent a very strong team to the Nuneaton Cross country championship. One pupil managed to qualify for the North Warwickshire and Nuneaton District team and took part in the Final Warwickshire Cross Country Championship.

The adventure trail in the Key Stage One playground is regularly used by over 60 pupils during break and lunchtime. (Straw poll research 5/03/19).

Additional spends this year.

£300 PE Primary Website. A ICT package that shows model PE movements to support gymnastics and dance. It also provides planning to support staff

£1100. The school trialed a package of rugby and reading. First team players from Coventry Rugby Club read with Year Six pupils before running a training and rugby session with them.

This took place throughout the Spring term 2019
