

Wembrook Primary School PE and Sports Premium Academic Year 2020-21

Funding to Support Primary PE and School Sport

Schools with primary-age pupils receive PE and Sport Premium funding based on the number of pupils in Years One to Six. Each school receives £16,000 plus an additional payment of £10 per pupil. For us, this amounts to £21,340 (Autumn 20 to Summer 21)

The Sports Premium was introduced to fund improvements to the provision of PE and sport, for the benefit of primary-aged pupils so that they develop healthy lifestyles. It is allocated to schools to work with all pupils.

Schools are free to determine how best to use this funding to improve the quality and breadth of PE and sport provision, including increasing participation in PE and sport so that all pupils develop healthy lifestyles and reach the performance levels they are capable of.

Accountability

Since September 2013, Ofsted inspections report on PE and sport provision and how schools will spend their additional funding. We also have to account for how we spend our money by publishing details on our school website and by discussing actions at a governing body meeting.

In setting the funding for this year, the school has struggled with making clear plans when the Covid-19 pandemic continues to have an impact on the organisation and planning of teaching during this academic year. For this reason, the school has decided to allocate more money than usual on resources and equipment, as it is anticipated that not all plans using external providers might take place.
